

Release Notes

FROM THE COMPANY MAKING MARKETERS POWERFUL.

Date: Oct 1, 2025
Version 2.4.6

Summary

Today's release includes a powerful new way to collaborate with your team's data, fresh updates to our YouGov integration, and several platform-wide bug fixes.

New Features

COMPANY UPLOAD DATA

Users with the **My Data** feature enabled will now see a new **Company Uploads** section within their file manager. This shared space allows anyone in your organization to upload files that can be queried by the entire team.

- Query all company files using **@companydata**
- Use **/filename** to search a specific file directly

This update makes it easier than ever to collaborate with shared insights and centralized knowledge.

Feature Enhancements

YOUGOV DATA UPDATE

We've updated the **YouGov data connector** to include the latest available dataset—now current through **2025/02/01**.

Users can query the most up-to-date public opinion insights directly within Adaly.

Bug Fixes

- Shelves feature: Improved stability and smoothed out interactions within the Shelves experience
- Additional bug fixes and platform-wide performance enhancements

And that's it for now!
